SIENA & SAN GIMIGNANO

VAKAY

THE GENUINE WAY
TO TASTE & DISCOVER

Both cities are UNESCO World Heritage Sites, with two historic centers with their own unique charm.

You cannot say you have been to Tuscany without having seen at least once Siena with its Piazza del Campo, home to the famous Palio di Siena that has ran every year since the 13th century, with the Torre del Mangia that dominates the entire city from above, up to its beautiful cathedral.

San Gimignano, on the other hand, tells us a unique story that takes us back to the Middle Ages, when the first skyscrapers began to be built! That's right: already in the 14th century the richest families of the city competed by building towers over 50 meters high to show their power and their wealth!

If you are passionate about history and art and you want to spend a day discovering two of the most beautiful and characteristic cities of Italy, we will be happy to customize your exclusive private experience!

PIENZA & MONTEPULCIANO

VAKAY

THE GENUINE WAY
TO TASTE & DISCOVER

Pienza and Montepulciano are the two main cities of the Val d'Orcia. Rich in history with a glorious past, the first Pienza is famous for being identified as the ideal city of the Renaissance and the second Montepulciano, among other things, is considered one of the best wine regions in the world.

The historical center of Pienza, with its "ideal" dimensions, is something amazing.

Montepulciano, on the other hand, is a gorgeous Renaissance village, with a medieval layout, set in a postcard-perfect landscape.

A day in Val d'Orcia can only end with a meal based on local products, such as Cinta Senese salami or pappardelle with wild boar, all accompanied of course by a glass of Vino Nobile. If you love fresh pasta, sit down in front of a plate of pici all'aglione (a delicious sauce typical of the Val di Chiana). Finally, do not miss the opportunity to see the Chianina steak cooked on the grill.

LUCCA & PISA

VAKAY

THE GENUINE WAY
TO TASTE & DISCOVER

Lucca is one of the treasures of Tuscany. The richness of the city is found in the beauty of its historic center, rich in monuments as well as stores where you can go shopping. It is also entirely surrounded by its imposing walls of the sixteenth century, still totally intact and passable on foot or by bike.

There are many activities you can do in the city: guided visits, wine and food tours, walks or bike rides on the walls, experiences to discover the local culinary traditions... in short, if you have never been to Lucca, there are many good reasons to do it!

Pisa does not need an introduction: everyone knows its Leaning Tower, something incredible and unique in the world! So, if you haven't seen it yet, this alone is reason enough to visit it, believe us!

AREZZO & CORTONA

VAKAY

THE GENUINE WAY
TO TASTE & DISCOVER

Cortona is a small cozy town set on the mountainous relief of the Valdichiana, located about a 40-minute drive south of Arezzo.

It was a very important Etruscan center so much so that the presence of the ancient settlements is still characterized today with 2 km of walls dating back to the 5th century BC.

It is a very picturesque village because of its typically medieval architecture, made up of ancient palaces, narrow cobbled alleys, small artisan stores and typical Tuscan trattorias.

Walking through the streets and roads of Cortona you will find several small stores selling handicrafts and local food products, all on the main streets. Excellent wines are produced in the area and there is no shortage of wine shops, so stop by for a taste of traditional local and Tuscan cuisine accompanied by a good wine!

Venice, founded in the 5th century, is an unique and incredible city built on over 100 small islands in a lagoon in the Adriatic Sea.

Known for its winding canals, stunning architecture, and rich cultural heritage, Venice was once a powerful maritime republic and a key player in European trade and politics.

This allowed Venice, among other things, to have contact with much of the then known world, including the Far East (Marco Polo, one of the most important Venetians, had stable relations with China as early as the late 1200s)

All this resulted in Venice becoming one of the most important cultural, economic and political centers until the late 1700s, and this unique richness can be found throughout the city, evidenced by the incredible beauty of its palaces and museums.

Today, it's famous for landmarks like St. Mark's Basilica, the Grand Canal, and the Rialto Bridge. A visit to Venice is like stepping into a living museum of art and history!

In addition, Venice is a uniquely romantic city, characterized by unique elegance and sophistication, making visiting Venice one of the most exclusive and unforgettable experiences of your life!
